

Year 4 Home Booklet 12

Monday

<p>Spelling</p>	<p>Discuss the meaning of each of your spelling words with someone then write your words out <i>three times</i>.</p> <div style="border: 1px solid black; padding: 10px; margin: 10px 0;"> <p>The prefix pro- meaning supporting and forward.</p> <p>The prefix anti- meaning against.</p> </div> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 25%; padding: 5px;"> <p>Rainbow The split digraph /i- -e/ making the sound "I" as in kite. kite smile life time side</p> </td> <td style="width: 25%; padding: 5px;"> <p>Red promote proceed procedure antibiotic antifreeze</p> </td> <td style="width: 25%; padding: 5px;"> <p>Orange propel provide progress anticlockwise antisocial</p> </td> <td style="width: 25%; padding: 5px;"> <p>Green progressive proactive procession antiviral antivenom</p> </td> </tr> </table>	<p>Rainbow The split digraph /i- -e/ making the sound "I" as in kite. kite smile life time side</p>	<p>Red promote proceed procedure antibiotic antifreeze</p>	<p>Orange propel provide progress anticlockwise antisocial</p>	<p>Green progressive proactive procession antiviral antivenom</p>
<p>Rainbow The split digraph /i- -e/ making the sound "I" as in kite. kite smile life time side</p>	<p>Red promote proceed procedure antibiotic antifreeze</p>	<p>Orange propel provide progress anticlockwise antisocial</p>	<p>Green progressive proactive procession antiviral antivenom</p>		
<p>Writing</p>	<p>Write a sizzling start and backfill based on the following picture:</p> <div style="display: flex; align-items: flex-start;">  <div style="width: 75%; padding-left: 10px;"> <div style="border: 1px solid black; padding: 5px; margin-bottom: 10px;"> <p>A sizzling start should be 1-2 sentences long and hook your reader in straight away it may be a:</p> <ul style="list-style-type: none"> sound hook rhetorical question action hook </div> <div style="border: 1px solid black; padding: 5px;"> <p>Backfill is where we 'go back' and orientate our reader. it includes the:</p> <ul style="list-style-type: none"> who when where what </div> </div> </div>				
<p>Reading</p>	<p>Read for 20 minutes.</p>				
<p>Sentence of the Day</p>	<p>Direct or quoted speech is used when an author wants to tell the reader exactly what the character said. For example: Direct quoted speech: "Come inside now," said Mum. Indirect reported speech: Mum told the children to go inside. When writing direct (quoted) speech, the author must place speech (quotation) marks around the words the character <u>actually said</u>. Write a sentence in which:</p> <ul style="list-style-type: none"> • A teacher gives a command for Mary to stand up. 				

Comprehension

Choose a different story book that you are reading at home. Pick **5 words** from the story that you are unsure of the meaning of. Use a dictionary to find the meaning, or discuss the words with a buddy/ parent to get a better understanding of the word.

Write the meanings of these words in your books.

Maths activity

Maths activity for this week is race to 250, 2000 or 10,000 (work to your ability level)

Roll two dice or flip two cards to make a two-digit number. Write the number down and then roll the dice or flip the cards again, making 2 two-digit numbers.

e.g. $25+41=$

Once you find the answer 66, make another two-digit number again, 21. Add this number to 66, so, $66+21=$ and then continue until you reach your goal.

Work out how many times you add on to reach your goal.

Repeat the task again and try to beat your last score.

$25+41 = 66$, $66+21= 87$, $87 + 13= 100$, $100+ 31= 131$

Maths: Answer the questions from the worksheet in your workbook.

Name _____ Date _____

MENTAL MATHS QUIZ 4:3

1) $7 + \underline{\quad} = 19$	
2) How many sides does a hexagon have?	
3) 10×7	
4) What is the value of the digit 1 in the number 4215?	
5) Round 73 to the nearest 10	
6) $28 - 25$	
7) Half of 16	
8) How many minutes in three quarters of an hour?	
9) How many right angles can you see in the shape?	
	
10) The time is 10:20am. What will the time be in 2 hours?	
11) What is the missing number in the sequence? 39, 37, 35, 33, 31, _____	
12) $14 + 9 + 6$	
13) Write down the number four hundred thirty-six	
14) What is the total of all the coins?	
	
15) The date is 28 th April. What will the date be in 5 days' time?	
16) How many mm is $3 \frac{1}{2}$ cm?

Two digits multiplied by one digit

	Hund	Tens	Ones
		1	3
			5
x			3
	1	0	5

$3 \times 5 = 15$ ones
Write 5 in the ones column and trade 10 ones for 1 ten and write the 1 in the tens column.
 3×3 tens equals 9 tens plus 1 ten which equals 10 tens.
Write the 0 in the tens column and the 1 in the hundreds.

1 Solve each multiplication using the shortened form.

2 Solve these problems.

- a** The pilot usually completes 29 flights each month. How many flights will she complete in 9 months?
- b** How many sultanas are there if there are 7 packs with 52 sultanas in each pack?
- c** The average mass of each netball player in the squad is 68 kg. What is the total mass of the 9 members of the team?

Other

Write your name in bubble writing and colour it in
or
Help fold the washing

Weekly
Science
Activity-
Lava lamp

This week you are going to get creative and make your own lava lamp!

Materials

- A clean plastic bottle, try to use one with smooth sides.
- water
- vegetable oil (can also use baby oil instead)
- Fizzing tablets (such as Alka Seltzer that you can purchase at woolworths)
- Food colouring

Instructions

1. Fill the bottle up about 1 quarter (1/4) with water.
2. Pour the vegetable oil in the bottle until it is almost full. You may want to use a measuring cup with a spout or a funnel. You may have to wait a couple of minutes for the oil and water to separate.
3. Add a few drops of your favourite food colouring. Watch as the colour sinks through the oil. Did your drops of color mix with the water immediately or float in between for a few minutes?
4. Break your fizzy tablet in half and drop part of it into the bottle. Get ready... here come the bubbly blobs!
5. You can even get a flashlight, turn off the lights and drop in another half tablet. This time shine the flashlight through the lava lamp while the blobs are bubbling!

Watch Scientist Joe as he makes the Lava Lamp experiment here!
<https://www.youtube.com/watch?v=EGHTZImTvFY&feature=youtu.be>

Extra experiments

What happens if you put the cap on after dropping the fizzy tablet in?

What if you drop a whole tablet in?

When it stops bubbling, try sprinkling some salt into your lava lamp. What happens?

Tuesday

Spelling

Write your spelling words and record the **syllables** and **sounds** in each of your words.

Writing

Reread your sizzling start and backfill from yesterday. Today we are going to add the **problems** in your story. To make your problems interesting for a reader we are going to add *three problems that get bigger and bigger and bigger*. Can you brainstorm ideas for your pebble, rock and boulder? Once you've picked your problems add them to your writing from yesterday.

Reading

Read for 20 minutes

Sentence of the Day.

Direct or quoted speech is used when an author wants to tell the reader exactly what the character said.

When writing direct (quoted) speech, the author must place speech (quotation) marks around the words the character actually said.

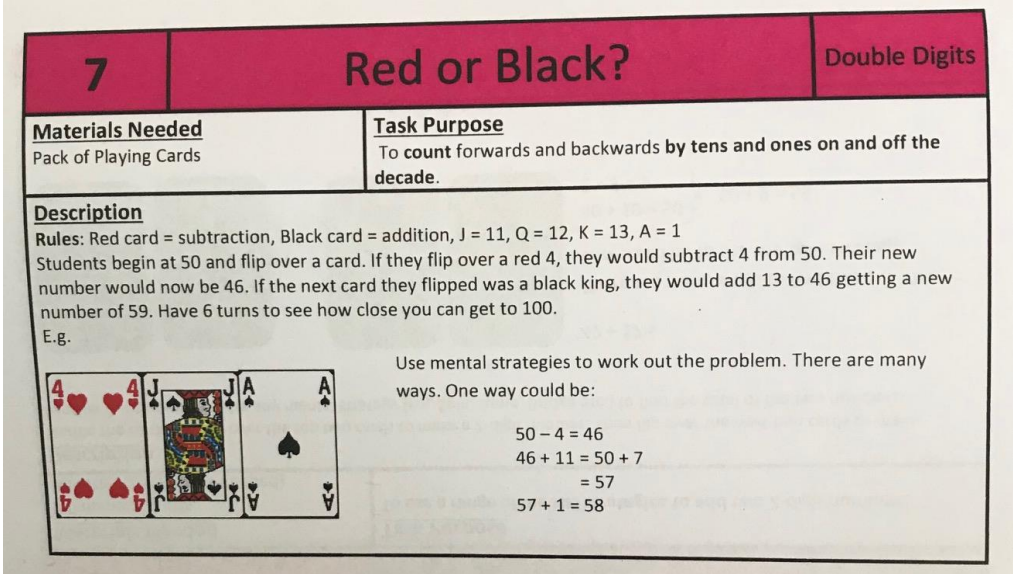

Write a sentence in which:

- Lisa says she likes cheese better than bread.**

Comprehension

Think about a TV show you have watched. Summarise in a paragraph what happened in the show. Remember to include as much information as you can. (Include the names of the characters, identify the problem and the ending).

Maths activity

Maths Problem Solving Questions

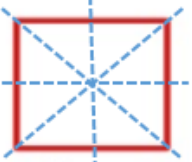

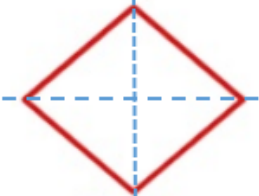

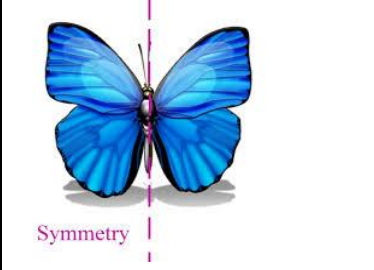

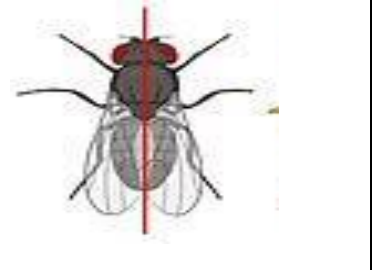

March

<p>Maths: Symmetry</p>	<p>Definition: The quality of being made up of exactly similar parts facing each other or around an axis. In other words something can be folded or divided in half so much so that both halves exactly match.</p> <p>There are many manmade and natural objects that are symmetrical.</p> <p>In today's lesson you will be required to head outside and find 10 objects that are symmetrical. You will then draw these objects in your book and show where the lines of symmetry are.</p> <h3 style="text-align: center;">Lines of Symmetry</h3> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  <p>Square 4 lines of symmetry</p> </div> <div style="text-align: center;">  <p>Rectangle 2 lines of symmetry</p> </div> <div style="text-align: center;">  <p>Rhombus 2 lines of symmetry</p> </div> </div> <p>Some examples of manmade or natural objects that are symmetrical can be:</p> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  </div> <div style="text-align: center;">  </div> <div style="text-align: center;">  </div> </div>
<p>Other</p>	<p>Create a fitness circuit at home. You might include star jumps, push ups, sit ups or Listen to music and relax</p>

Wednesday

<p>Spelling</p>	<p>Write all of your words in alphabetical order.</p>
<p>Writing</p>	<p>Write an exciting ending for your story from this week. An ending should wrap up your story with an action ending and a character resolution.</p> 
<p>Reading</p>	<p>Read for 20 minutes.</p>
<p>Sentence of the Day</p>	<p>Direct or quoted speech is used when an author wants to tell the reader exactly what the character said.</p>

	<p>When writing direct (quoted) speech, the author must place speech (quotation) marks around the words the character <u>actually said</u>.</p> <p>Write a sentence in which:</p> <ul style="list-style-type: none"> • Pam asks Gillian if she would like to come to her place to play.
Comprehension	<p>Watch a video on Youtube or a documentary about a native Australian animal of your choice. Think of 3 questions for a friend/ parent to answer about what you have learnt about the animal.</p>
Maths activity	<p>Maths activity for this week is race to 250, 2000 or 10,000 (work to your ability level)</p> <p>Roll two dice or flip two cards to make a two-digit number. Write the number down and then roll the dice or flip the cards again, making 2 two-digit numbers. e.g. 25+41=</p> <p>Once you find the answer 66, make another two-digit number again, 21. Add this number to 66, so, 66+21= and then continue until you reach your goal. Work out how many times you add on to reach your goal.</p> <p>Repeat the task again and try to beat your last score.</p> <p>25+41 = 66, 66+21= 87, 87 + 13= 100, 100+ 31= 131</p>
Maths Problem Solving	<p>Sally has 1 yellow pencil, 5 red pencils, 2 green pencils and 3 blue pencils in her pencil case.</p> <p>She takes one pencil without looking.</p> <p>The colour of the pencil she is most likely to take is</p> <p><input type="radio"/> red.</p> <p><input type="radio"/> blue.</p> <p><input type="radio"/> green.</p> <p><input type="radio"/> yellow.</p>
Other	<p>Design a board game. Include the instructions, rules, etc.</p> <p>or</p> <p>Cook something in the kitchen with an adult.</p> 

Maths:

Answer the questions from the worksheet in your workbook.

UNIT
3

Picture graphs

When using **picture graphs** a single symbol can represent more than one of the objects.

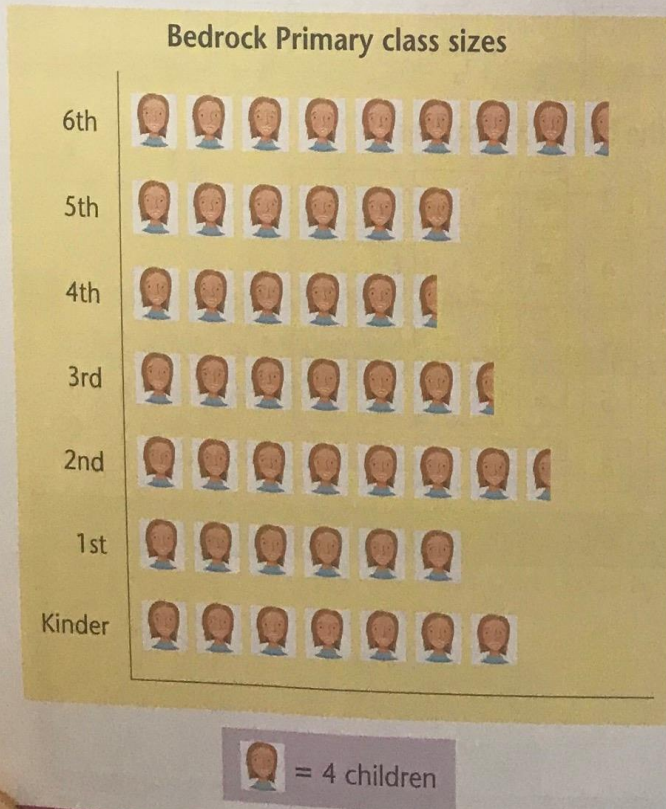

9 Use the key to the picture graph to answer the following questions about the animals on the farm.

Key
1 animal picture = 10 animals

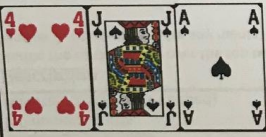

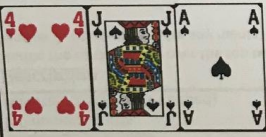

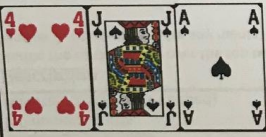

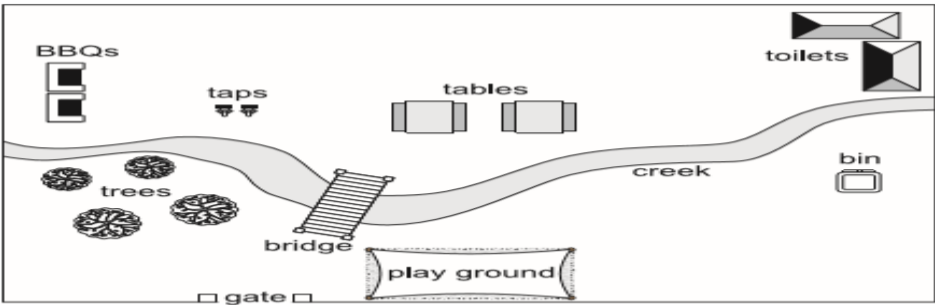

- a How many cows are there? _____
- b How many sheep are there? _____
- c How many horses and pigs are there altogether? _____
- d How many goats are there? _____
- e How many more horses are there than goats? _____
- f Are there more than 450 animals on the farm? _____

10 Examine the key carefully before attempting the questions.

- a How many children in 5th grade? _____
- b How many children in kindergarten? _____
- c How many children in 3rd grade? _____
- d How many children in 6th grade? _____
- e Which is the smallest class? _____
- f Which is the largest class? _____
- g Which class has 22 children? _____
- h How many more children are in 2nd grade than in 5th grade? _____
- i How many children in the school? _____

Thursday

Spelling	<p>Rainbow write your spelling words (write each word in different colours of the rainbow.)</p>

MENTAL MATHS SHEET 4:4

1)	$3 \times \underline{\quad} = 30$	
2)	Write down a multiple of 5 between 22 and 32	
3)	$40 \div 10$	
4)	$628 = 600 + 8 + \underline{\quad}$	
5)	Write down two thousand nine hundred and fourteen	
6)	What is the next number? 17, 21, 25, 29, 33, $\underline{\quad}$	
7)	How many vertices does this shape have? 	
8)	How many 3s make 21?	
9)	Round 165 to the nearest 10.	
10)	What fraction of the shape below is shaded? 	
11)	How much money is 1 TWENTY plus 3 TENS plus 4 FIVES?	
12)	$48 - \underline{\quad} = 42$	
13)	The time is 3:40pm. What will the time be in half an hour?	
14)	How many TENS make £1.40?	
15)	A pencil costs 31p. How much do 3 pencils cost?	
16)	One yard is 3 feet. How many feet in 7 yards?	

1 Revising polygons

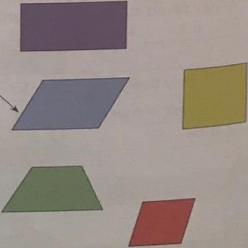

A **polygon** is a shape made up of three or more straight sides.

7 Give a clear description of each shape by recording its properties.

Shape	Name	Sides	Angles	Types of angles	Lines of symmetry
	triangle	3	3	acute	3
					
					
					
					
					

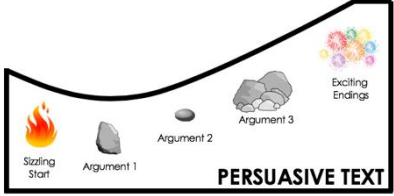

8 Draw a line to match each description to the correct quadrilateral.

- a A parallelogram is a four-sided shape with two pairs of parallel sides. Opposite sides and angles are equal. A square and a rectangle are other examples of a parallelogram.
- b A rectangle is a parallelogram with two pairs of equal sides and four angles of 90°.
- c A rhombus is a parallelogram with four equal sides and two sets of matching angles.
- d A square is a parallelogram with four equal sides and four angles of 90°.
- e A trapezium is a quadrilateral with only one pair of parallel sides.

Other	Go on a "TREASURE HUNT" around your house and try and find something; red, yellow, green, blue, orange, black, white, pink and purple. or Tidy and Vacuum your bedroom.
